INTERNATIONAL SYMPOSIUM ON UNDERWATER TECHNOLOGY 2015

FEBRUARY 23-25, 2015

National Institute of Ocean Technology, Chennai, India
Sustainable Technology Development for Ocean

National Institute of Ocean Technology (NIOT) was established during 1993 as an autonomous society under the Ministry of Earth Sciences, Government of India. The mandate of NIOT is to develop reliable indigenous technologies to solve the various engineering problems associated with harvesting of non-living and living resources in the Indian Exclusive Economic Zone (EEZ). Also to provide competitive, value added technical services and solutions to develop a knowledge base and institutional capabilities in India for management of ocean resources and environment.

The symposium is being organized by IEEE/OES, IEE/OES Japan Chapter and IEEE/OES India Council. The vision for this symposium is to provide a thematic umbrella for the researchers working in underwater systems across world to discuss the problems and potential long term solutions that concern not only the Indian Ocean regional countries, but the world ocean in general.

THEMES OF THE SYMPOSIUM

The symposium consists of keynote talks, double-track technical sessions and poster session. It will feature advanced underwater technology and its applications.
