

## *ELECTROCHEMISTRY & CORROSION CAMP (ECC - 2013)*

National Institute of Ocean Technology (NIOT) along with SAEST, Kalpakkam chapter & NACE International Gateway India Section hosted ELECTROCHEMISTRY & CORROSION CAMP (ECC - 2013) to nurture and promote young school children of Kalpakkam and Chennai in the area of corrosion, electrochemical science and technology on 8<sup>th</sup> November 2013 at NIOT Campus. As a part of this event various national facilities of NIOT including Ocean Observation Systems, Deep Sea Technologies were shown and explained to students. A presentation on different types of electrochemical batteries used at NIOT was held along with practical demo.

A total of 72 Students and 7 Teachers actively took part in this camp. Refreshments and Lunch were provided to attendees.

Scientist and officials of National Institute of Ocean Technology (NIOT), Indira Gandhi Centre for Atomic Research (IGCAR), Members of SAEST (Society for Advancement of Electrochemical Science and Technology) were present at the camp.
